Last term I visited Miss Thompson’s class in the library with the talented Mrs Campbell. During their library lesson Mrs Campbell was teaching the students about safety when using computers and the internet. Protecting your children from harm is just as important online as it is in the real world. At St Patrick’s we strongly believe that parents or carer, play an important role in helping children have safe and positive experiences online. As you are aware, the internet offers an exciting world of experiences for children and the whole family. It can be entertaining, educational and rewarding. However, using the internet also involves risks and challenges. Our students in Year Two were not only learning about keeping their private information safe but learning about what constitutes private information. – Mr A-J
